Discover AQF Light Laboratory

20 km from Kraków city center:
Przemysłowa 12-14, 32-070 Czernichów
Poland

With your own senses, you will experience what light means for architecture. You will see how it interacts with and shapes the environment.

+300 luminaires

gathered in one place, ready to be tested.

+100 different light scenes

to inspire and help you understand the potential of lighting.

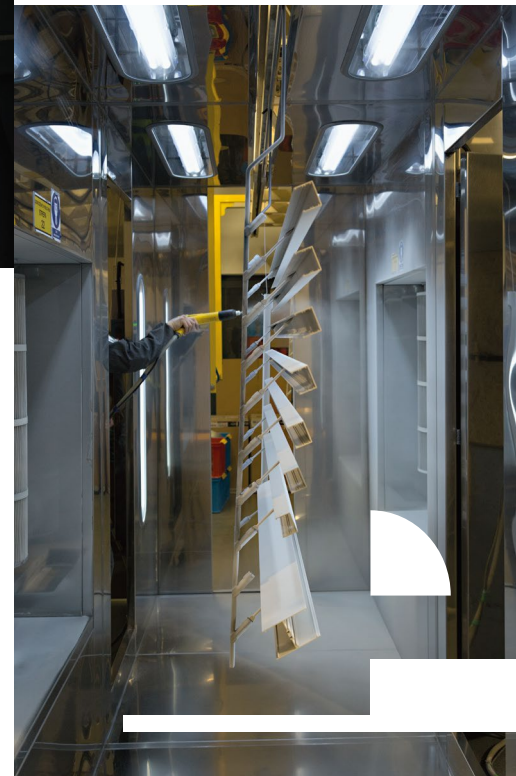

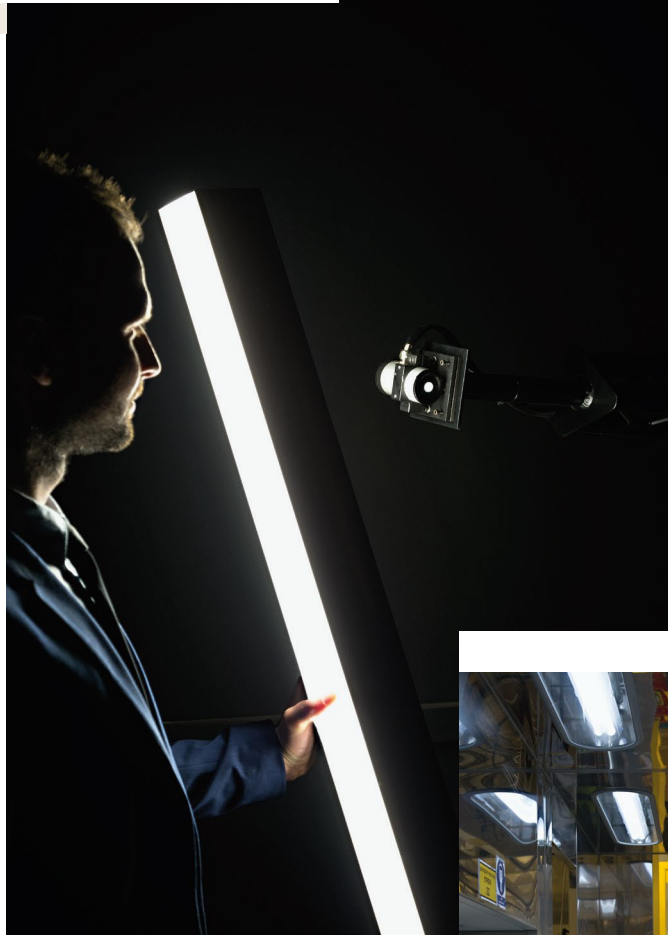

Explore more than just light: **visit our factory, and laboratories** to see how modern lighting comes to life – and enjoy the charm of Krakow, Poland's cultural gem!

During your visit to the AQF Light Laboratory, you'll uncover how to maximise the potential of light for your projects!

Play with light, play with colours!

Our offer includes a full spectrum of easy-to-use standard fixtures, as well as customized systems luminaires that fit together seamlessly like puzzles. Besides that, thanks to own labs&productionwe also offer the option to modify standard products or to paint in custom colours to suit specific project needs.

Rely on experience

Our lighting fixtures are developed at the Research and Development Center, which spans nearly **3,600m²**.

In 2024, we completed a new building with over **7,000m²** of warehouse and production space to increase the efficiency of our production process.

We **design, test and manufacture** our luminaires in our factory located in Czernichów near Krakow.

Our company's roots date back to **1992**, when we specialized in... furniture production!

However, it quickly became apparent that light was our true passion. **We are fascinated by light** for nearly 30 years.

And although much has changed since then, we still prioritize the uncompromising **quality** of our products.

Since 2020, we have been hosting a series of original webinars about lighting, which have attracted over **15,000 participants**.

Our showroom, first opened in 2020, was honoured with the **iF Design Award** and has already been **visited by over 1,600 guests from around the world**. In 2024 we unveiled the 3.0 edition of the showroom.

Discover with us wonderful places full of history and inspiration

Kraków is a historic city full of inspiration, charming with its old streets in the market square and beautiful tenement houses. While strolling through the city, it's worth visiting Wawel and St. Mary's Basilica, which are among the most important monuments. For our guests visiting our company, we offer accommodation in a comfortable hotel near the Old Town. In the evening, we invite you to dinner in a stylish restaurant, where we will spend time in a pleasant atmosphere.

Another interesting attraction is a trip to the historic salt mine in Wieliczka. It is a tourist attraction where, during the tour, you can admire the beautiful and mysterious corridors of this mine.
