Lights forms life

DART LED exterior upright

The demand for light after dark is not limited to interiors only. Long summer evenings are perfect for gatherings in the garden, during which carefully chosen lighting sets a mood-enhancing atmosphere. To fully enjoy this, it's essential to care not only for the surrounding flowers and shrubs but also for suitable fixtures that will highlight the greenery, illuminate the facade or mark the driveway. Discover the wide range of outdoor fixtures from AQForm and create a unique space around your home!

In the garden

The garden often serves as an extension of the home interior. It's an oasis of relaxation on hot days, a meeting zone for loved ones and for some – a place to pursue botanical passions. Therefore, it's worth investing in proper lighting that will provide comfort and allow you to admire the surrounding greenery after dark.

Dart Slup

Discover pleasant accent lighting

DART is a family of waterproof spotlights that will illuminate what's most interesting in the garden: attention-catching plants, the facade or the gazebo. Thanks to the possibility of adjusting the height and angle of the spotlight, the fixture perfectly adapts to specific needs. The high IP65 waterproof rating ensures safety even on rainy days and the minimalistic design serves as a subtle decoration for a modern garden.

Ensure safety after dark

Thanks to its high technical parameters, the SLUP collection effectively ensures safety and ease of movement after dark. The fixture facilitates orientation by effectively illuminating the backyard path or driveway to the garage. Minimalistic poles define the space and give it a modern character. With a CRI>90, it provides accurate colour rendering and accentuates the richness of the greenery.

Maxi Point

Are you looking for lighting that will add a glow to your facade? Or perhaps you need some pleasant light for your terrace? Reach for fixtures from the MAXI POINT collection, which in the wall version will gently illuminate the facade and in the standing version, they will enliven the backyard space with soft downward-directed light.

Mroom

NEW PRODUCT

Opt for efficient table lighting

The MROOM collection is a proposal for efficient table lighting that stands out due to its exceptional durability. Thanks to its easily replaceable and high resistance battery, the passage of time doesn't affect it, making it suitable for commercial spaces like hotels or restaurants. MROOM features touch-controlled power adjustment and one fixture can illuminate a small table for up to 4 people. Its high IP65 waterproof rating allows the fixture to be used both indoors and outdoors.

Battery life: min. 500 cycles. Replaceable battery. Charging time 8h at 2A.

Follow the path

Garden pathways primarily serve a communicative function, facilitating easy movement around the property. To ensure safety after dark, it is essential to invest in proper lighting that will guide the way to the house.

AQForm outdoor fixtures are perfect for this task, effectively illuminating the path or driveway.

Slup Dart

Ensure safety after dark

The SLUP collection defines the space, facilitates orientation and indicates the direction of movement. Its robust construction and IP65 rating make the fixture resistant not only to adverse weather conditions but also to impacts, for example, from playing ball. SLUP boasts incredibly easy installation and precise colour rendering. It works well as pathway lighting in front of a house or hotel.

Discover pleasant accent lighting

Are you looking for a versatile solution that will highlight the best features in your garden and at the same time subtly accentuate the driveway to the garage or the backyard path, ensuring safety after dark? DART will excel at each of these tasks! The fixture does not require low-voltage installation, so it can be mounted even in the most remote corners. Moreover, DART boasts a high colour rendering index (CRI>90) and the ability to direct the spotlight, adjust the height or add one that is available as an accessory.

Pet

Precise lighting in a classic form

The PET exterior collection is synonymous with modernity and elegance. It accentuates the refined character of the interior while proving that slender and minimalistic form can go hand in hand with excellent technical parameters. The version with an increased IP65 waterproof rating, suitable for both indoor and outdoor use, works perfectly in areas exposed to moisture. It will effectively illuminate the terrace, entrance to the house, corridors or bathrooms.
